Hello S M Taslim Uddin,

First off, thank you so much for taking the time to volunteer as a mentor for our incoming graduate students. Your assistance with this program is greatly appreciated! By volunteering to be a mentor, you are helping build a stronger ECE graduate student community.

Below are the incoming graduate student(s) that you will be mentoring. Please introduce yourself and let them know you are here to help as soon as possible!

Again, if you would like a certificate of completion, please let me know!

Your Mentee(s):

Email	First Name	Last Name	Gender	Area of Concentration	Program	Spoken Language(s)
a29pan@uwaterloo.ca	Alicia	Pan	Female	Pattern Analysis and Machine Learning (PAMI)	MASc	English

Please note:

- Mentors should contact their mentee(s) ASAP Or at least two weeks before the start of term.
- Mentors should normally meet with their mentee(s) at least once per week in the first 2 weeks of term, and then stay in touch for the remainder of the term. If you wish to meet with them more than this, please do so!
- It may be beneficial to create a common group on Facebook, WhatsApp, Slack or any other social media platform, so that you and your mentees can chat. However, it is up to you how you would like to communicate with them.
- Attached you will find the Mentorship Guide. **Please ensure to read this thoroughly before contacting your mentees!**
- Again, **you are not an academic, career or mental health counsellor**. Having said that, if you receive questions that you are unsure how to answer, or do not feel comfortable answering, please refer the student to either myself or [Kora Sevo](#) (Wellness Coordinator).
- **I will also be contacting your mentee(s) to let them know who is in their group and how to contact you!**

If you have any questions or concerns regarding this process, please do not hesitate to ask!

Best,

Jessica Rossi
